SUMMARY

Frontend Developer with 2+ years of experience across React, Vue, and Next.js, specializing in crafting intuitive, scalable, and responsive web applications. Adept at solving UI challenges, improving performance, and integrating modern frameworks. Valued for adaptability, teamwork, and driving impactful feature development.

EXPERIENCE

Senior Frontend Developer

Revent AI

Oct 2023 – Sept 2025

Remote

- Created a full-featured presentation canvas editor from scratch using **Fabric.js** in React.
- Worked across three different frontend applications:
 - * **React TypeScript (Dashboard app)**: Built dashboards for handling presentations, themes, and user account features. Resolved bugs, improved performance, and enhanced UI using **Redux Toolkit** and **MUI**, reducing load time by **20%**.
 - * **Vue TypeScript (Canvas app)**: Developed canvas editing and handling features, integrated editable elements, and used **Pinia Store** and **SCSS** for state management and styling.
 - * **Next.js (SEO-focused app)**: Built an SEO application from scratch including blogs (Hindi/English), feature explanation pages, meta info, reCAPTCHA, and JSON-LD schema, improving SEO indexing by **30%**.
- Developed Node.js + Express.js APIs for PowerPoint XML JSON conversion and export features.
- Integrated features like Doc-to-PPT, Prompt-to-PPT, guided tours (Joyride), and SEO enhancements with JSON-LD schema.
- Promoted to Senior Frontend Developer in May 2025 for leading high-impact feature development.

PROJECTS

StyleSpot

React, Redux, Chakra UI, JSON Server

Deployed — GitHub

- Built an e-commerce platform for clothing and accessories with login, signup, admin panel, and cart.
- Implemented URL-based filtering and sorting for product discovery.
- Used **Chakra UI** for a responsive, modern interface and **JSON Server** for backend simulation.

EduHub

Angular, Node.js, MySQL

Deployed — GitHub

- Developed an edtech platform offering lectures and assignments with a team of 4.
- Implemented instructor dashboard with manual and AI-based assignment creation.
- Built student dashboard for course management and submission features.
- Integrated a generative AI chatbot for user support and interaction.

CERTIFICATES

- Prompt Engineer – Masai School
- Full Stack Web Development – Masai School

SKILLS
