OBJECTIVE

Skilled Software Developer with hands-on experience in JavaScript and React. Specializing in building responsive web applications and AI-powered data-driven dashboards. Collaborative team player, passionate about solving real-world challenges with modern tech. Driven by curiosity, innovation, and a user-first approach, with a constant drive to learn and explore new tools to stay ahead of tech trends.

KEY COMPETENCIES

Frontend Development	JavaScript	React Js	Tailwind
ANT Design	Bootstrap	Redux	Firebase
Highcharts	GIT	GITHUB	Node Js

Project

Netflix GPT

- Developed Netflix GPT, an AI-powered movie recommendation platform using React, inspired by Netflix UI and GPT search capabilities.
- Implemented Firebase Authentication, Redux Toolkit for state management, React Router DOM for smooth routing across views with a responsive UI styled using Tailwind CSS.
- Integrated OpenAI ChatGPT APIs to fetch intelligent, context-aware movie suggestions based on user input.
- Followed best practices with memoization, lazy loading, custom hooks to enhance performance.

PROFESSIONAL EXPERIENCE

Staqu Technologies

Nov 2022 - May 2025

Software Engineer

- Actively contributing to the improvements, optimizations, and feature development **JARVIS**, a flagship product of STAQU.
- Developed JARVIS GPT, a conversational UI that enables users to query analytics data using natural language and receive real-time responses, which increased the **revenue** by **14%**.
- Participated in feature planning with designers and implemented for various product modules, catering to both retail analytics and security surveillance use cases.
- Revamped a critical module in Jarvis, improving **load time** by **23%** through performance optimizations including dynamic imports, React lazy loading, and efficient icon/asset management
- **TECH USED** - HTML, SCSS, BOOTSTRAP, REACT JS, NODE.JS, HIGHCHARTS and ANT D

Solidity Technologies

May 2022 - Oct 2022

Software Engineer

- Working with one of India's Unicorns in the automotive space on their Yard management system for India, UAE, and Thailand.
- Contributed to global growth by building and launching their product in Indonesia and UAE, that **increased revenue** and **sales**.
- Worked on developing a sales panel, which improved internal operating efficiency.
- Collaborated with designers and backend developers to build, test, and improve products.
- **TECH USED** - HTML, CSS, BOOTSTRAP, TAILWIND CSS, JAVASCRIPT, REACT JS, REDUX TOOL KIT

EDUCATION

Bachelor of Technology, CSE

Uttarakhand Technical University

Sharda Public School

Senior Secondary Education in Mathematics
