SUMMARY

Frontend Developer with 2+ years of experience building responsive, user-centric applications. Enthusiastic about solving UI challenges, learning new technologies, and delivering scalable web solutions. Experienced across React, Vue, and Next.js with a strong focus on performance, collaboration, and adaptability.

EXPERIENCE

Revent AI   *Oct 2023 – Present*
Junior → Senior Frontend Developer   *Remote*

– Joined as Junior Frontend Developer and created a complete presentation canvas editor from scratch using **Fabric.js** in a React application.

– Worked across three different frontend applications:

  * **React TypeScript (Dashboard app):** Built dashboards for handling presentations, themes, and user account features. Resolved bugs, improved performance, and enhanced UI using **Redux Toolkit** and **MUI**.
  * **Vue TypeScript (Canvas app):** Developed canvas editing and handling features, integrated editable elements, and used **Pinia Store** and **SCSS** for state management and styling.
  * **Next.js (SEO-focused app):** Built an SEO application from scratch including blogs (Hindi/English), feature explanation pages, meta info, reCAPTCHA, and JSON-LD schema for improved indexing.

– Created Node.js + Express.js APIs to convert PowerPoint XML into application JSON, enabling import/export between PPT and canvas.

– Implemented export feature to generate PowerPoint slides directly from canvas JSON.

– Integrated advanced features like **Doc-to-PPT**, **Prompt-to-PPT**, and created an in-app guided tour using Joyride.

– Promoted to Senior Frontend Developer for taking ownership of complex features and efficiently resolving bugs in multiple applications.

PROJECTS

MegaMart (E-commerce Clone)   *Dec 2022 – Jan 2023*
Personal Project   *Live Link*

– Developed a full-featured e-commerce site using **React**, **Chakra UI**, and MockAPI.

– Implemented authentication, filtering, add-to-cart, and payment flow.

– Completed independently in 5 days with eagerness to learn and adapt quickly.
